## REILLY LINCOLN BECOMES PINS' 4th STAKES WINNER FOR 2016/17

Lisa Latta rarely goes home empty-handed from Riccarton and a Pins mare ensured it was business as usual at this New Zealand Cup carnival. The Awapuni trainer produced Reilly Lincoln to put away her rivals in Wednesday's Gr.3 Lindauer Stewards' Handicap.

The five-year-old was a month between runs when she had finished fifth in Saturday's Listed Pegasus Stakes and a race she derived benefit from. "They went hard the other day and she just compounded," Latta said. "We've just swum her since then and she hasn't had a saddle on her."

Ridden by Rosie Myers, Reilly Lincoln jumped well to sit outside the leader and, after taking control on straightening, she held a strong gallop for the seventh win of her career and her first at stakes level. "She had a beautiful trip today and she stripped a lot better than she did on the first day," Latta said. "We wanted to get some black-type with her and she'll have a week in the paddock now before we look for some nice sprints for her."

Reilly Lincoln is raced by her breeders John and Lynne Street under their Lincoln Farms banner. "They've been so loyal to me for a long time and they're great friends," Latta said.

Pins completed a winning double at Riccarton when the WS-bred and raced Residential claimed major honours in the NZB Ready to Run Sale Premier 3YO. A daughter of the stakes winner Metropolitan, she has now won two of her last three starts.

"She hit the rail a couple of times so I was a bit apprehensive," said Karen Parsons, who trains the filly with her husband John. "She'll get a mile without any doubt and she might even get a mile and a-quarter."

**GLASS SLIPPER**

Glass Slipper hasn't missed a beat as she progresses toward the Gr.1 gavelhouse.com NZ 1000 Guineas at Riccarton on Saturday.

"She's had a very good preparation and we're happy with her – she'll get her chance to perform on the big stage," said Andrew Scott, who trains the Pins filly with Lance O'Sullivan.

Placed in the Gr.3 Eclipse Stakes last term, Glass Slipper finished runner-up two runs back in the Gr.3 Gold Trail Stakes and was then again second in the Listed Soliloquy Stakes.

## WITH GARETH DOWNEY

### THE ODDS OF SUCCESS

The ever-consistent Reilly Lincoln became stakes winner number 72 for Pins in winning the Gr.3 Stewards Handicap at Riccarton on Wednesday. Reilly Lincoln scored in a time of 1.08.1 for the 1200m and took her record to 7 wins from just 16 starts. This kind of record has become the trademark of the progeny of Pins. There are a few interesting statistical points highlighted by the win of Reilly Lincoln, including:

- Pins has now sired 4 individual stakes winners so far this season, and they have all been Group winners. They are Mackintosh (Gr.2 Theo Marks), Legless Veuve (Gr.2 Thousand Guineas Prelude), Reilly Lincoln (Gr.3 Stewards) and Honey Rider (Gr.3 Gold Trail)
- There are 128 stallions standing in Australasia this season who have had Southern Hemisphere-conceived runners. 98 of these have produced at least 1 stakes winner. Of these, there are 37 that can be considered thoroughly well proven, because they have sired more than 10 stakes winners. Only 7 of these have produced their stakes winners at a rate better than 7.5% SW/Rnrs. This is an excellent reminder of just how hard it is to get these genuine elite stallions. Pins is one of these seven and therefore rightly deserves his place as one of the very best stallions available in Australasia. The other six all stand this season for a service fee of \$100,000+GST or more, so that again highlights what amazing value Pins is at \$25,000+GST. We are so lucky to have

access to stallions such as these – they are just so hard to find

- Reilly Lincoln is out of an O'Reilly mare. If we look at the results to date of those thoroughly well tested broodmare sires in the Southern Hemisphere, I can find 58 individual broodmare sires in recent times whose daughters have produced more than 15 stakes winners. In terms of the strike rate at which these have been produced, none is better than O'Reilly – he leads this table with a record of 7.3% SW/Rnrs; an exceptional strike rate as a broodmare sire
- When O'Reilly mares have been sent to Pins, the results are running at 9.1% SW/Rnrs, with the stakes winners apart from Reilly Lincoln being Shopaholic, Icepin, Legless Veuve, Tootsie, Maritimo, Sharp Princess and Raid

So, if you have an O'Reilly mare then you have a daughter of the best broodmare sire in our part of the world. If you send a mare to Pins, you are capitalising on the opportunity to go to what appears to be the best value proven stallion available in Australasia this season.

If you would like to discuss sending a mare to Pins, or if you have an O'Reilly mare and would like to discuss mating options for her, please get in touch for a chat via either [gareth@waikatostud.co.nz](mailto:gareth@waikatostud.co.nz) or 021 433 073

**GLASS SLIPPER** 14f  
- as a yearling at Waikato Stud

Cup week has been and gone and I have to say, I did miss being there.

I will no doubt get to this time again next year and will ask 'to go, or not to go?' I suppose it doesn't matter that VRC are happy to run a European benefit with 20 of the field originating from there.

For all that, I congratulate team Williams on their success. We all know of their passion to lift the Cup and the investment they commit to that end. To successfully return the winner to the track and win is a credit to all concerned.

Where are our competitors in the race? I naturally don't subscribe to the view that our breeding has lost its way. There are a combination of reasons, some that need to be addressed if the great race is to maintain its status. Waikato stallions with horses of racing age have had runners in the race, so we are not excluded from participating on the basis of genetics. There are many impediments to overcome to get a start; the ratings are confusing when a European Listed winner, who just happens along the way to have cleared a few hurdles, rates above say an Auckland Cup winner.

My corner won't allow me the space to cover the view of racing supporters' disillusionment with their inability to have horses to follow and pit their judgement against the handicapper. My view is there should be specific races throughout the year that automatically qualify the winners for the Cup. This would benefit the providers of these races along with punters taking a position a long way out.

This year they struggled to get a full field, so perhaps we are partly to blame, perhaps we don't have the owners or trainers with the patience to develop these athletes. But then who requires patience when you can put out the feelers for a hurdler and be assured of a start.

Cheers,

Garry

# THE MAIL WITH MARK

Very proud of our Ready to Run draft heading up to Karaka this weekend, ahead of next week's Sale. It's a nice draft that is headlined by the O'Reilly – Honolulu colt ([pictured left, click here for video](#)). He would be as nice a horse as I have taken to any sale – and what's more, we know he can gallop. As mentioned earlier, our Karaka-based parades for these four horses will commence at 9 am on Sunday, so hope to see you there.

Our triple Gr.1 winning race mare Daffodil had a Savabeel filly yesterday (see pics below). It's always nice to get a filly out of a top mare like this – and particularly so, when the foal's half-sister Snowdrop (Pins) is doing so well and being aimed towards the Gr.1 Railway. In other family news, we have also just brought Daffodil's earlier Savabeel filly in to commence her yearling prep. She will be offered at NZB's Premier Yearling Sale in January.

There is a real buzz around the farm at the mo. It's taken a long time, but the sun and warmth is now more consistent and the season is in full swing. We are now in the twenties as far as mares still to foal. The stallions are busy. The yearlings are in and all go. There is good racing week in-week out, and from next week on, the offshore visitors start to arrive to see what's on offer at Karaka this year.

Exciting times!

Mark
